### Phase Vehicle Extension Times After Minimum Green (ASC/2 WPT 0x001 Bit 3)

Phase Vehicle Extension times after Minimum Green  
(While the min green timer is timing, the phase extension time is held reset by applying a constant vehicle call)

-----  
MM-1-8-1: Disable ("D") LP step X  
Where "X" is an open LP step 1-100  
-----

MM-1-8-2 Program LP steps as follows:  
-----

LP X  
IF MIN GRN TIMER PHS 1 IS ON  
  
THEN CALL PHASE 1 ON  
-----

MM-1-8-1: Enable ("E") LP step X

A separate LP statement will be required for each phase that this feature is required for.
